

Creating Copilot Studio agents

3 day training course

Course contents

This course will cover the following topics. Those marked with (*) will be covered if time allows.

Creating agents

- Internal versus external agents
- Choosing an environment
- Setting instructions
- Assigning an icon

Knowledge sources

- Supported knowledge sources
- Restricting agents' knowledge
- How generative answers work

Basic topics

- Understanding topic triggers
- System topics
- Displaying messages
- Commenting topics

More on topics

- Adding custom topics
- Adding using Copilot
- Linking topics
- Ending topics

Questions and variables

- Asking questions
- Reprompt settings
- Storing answers in variables
- Setting variables manually

Conditions

- Adding conditions
- Basic expressions

Testing your agents

- Testing your agent
- Tracking topics
- Tracking variable values
- Conversational snapshots

More on variables

- Topic and global variables
- Types of variable
- System variables

Entities

- Using pre-built entities
- Creating closed list entities
- Synonyms
- Regex entities

Using entities

- Using within conversations
- Slot filling
- Proactive slot filling

Error-handling

- Error triggers
- Writing error topics

Working with agents

- Searching in agents
- Content moderation settings

Publishing

- Publishing to websites
- Publishing to Teams
- Analysing performance
- Billing overview

Adaptive cards (*)

- Designing adaptive cards
- Accepting outputs
- Controlling reprompts

Power Automate flows

- Setting flow inputs
- Basic flows
- Exporting outputs

Power Automate tasks

- Sending emails
- Updating SharePoint lists
- Updating Excel tables
- Saving OneDrive files

Pre-requisites for Creating Copilot Studio agents course

There are no pre-requisites for attending the course, although you'll find it difficult to follow if you're not already a user of AI tools like ChatGPT, Claude or Gemini.

If you already know how to create flows in Power Automate you will find some of the concepts on the course familiar. This will give you a useful head-start, but knowledge of Power Automate isn't a pre-requisite for this course.
