Pre-requisites for The OpenAl API (Python) course

You should only consider attending this course if you have a good working knowledge of Al tools and a good knowledge of Python. Our ideal courses to help you prepare are:

| Area | Course(s) | Days | Notes |
|-------------|--|------|---|
| AI tools | Introduction to AI tools | 2 | If you're a regular user of the likes of ChatGPT you can get away without attending this course. |
| Python | Introducton to Python Fast-track Python | 2 3 | The two-day course will be sufficient for most people, but in an ideal world you would attend the three-day course to include learning about dictionaries, sets and working with JSON data. |
