Wise Owl Training

Fast track SSIS

3 day training course

Course contents

This course will cover the following topics. Those marked with (*) will be covered if time allows.

From our Introduction to SSIS course

SSIS basics

- Solutions and projects
- Basic packages
- Control and data flow tasks
- The 32-bit question

Data flow tasks

- Connection managers
- Sources and destinations

Using different data connections

- SQL Server (OLEDB)
- Connecting to Excel workbooks
- New and existing flat files
- Multiple flat files

Data viewers

- Attaching data viewers
- Data buffers

Basic data transforms

- Sorting and aggregating
- Sampling data
- Dividing and uniting data

Data conversion transforms

- The SSIS data types
- Unicode and ASCII data
- Type cast functions

Variables and expressions

- The Row Count transform
- User and system variables
- Expression tasks

Debugging

- Setting breakpoints
- The Locals window

Derived column transforms

- SSIS expressions
- Using SSIS functions
- Using the conditional operator

Handling errors

- Redirecting and ignoring errors
- Truncation errors

Conditional split transforms

- Splitting data by expression
- Using comparison operators
- Syntax for multiple conditions

Lookup transforms

- Redirecting unmatched rows
- Choosing a cache mode
- Setting unmatched rows to Unknown
- Adding unmatched rows automatically

File system tasks

- Working with files
- Working with folders

Looping over files

- The file name variable
- Configuring the loop
- Expression constraints

Importing multiple files

- Using expressions for connections
- Dynamic connections within loops

Looping over rows

- Object variables
- Reading in data
- Looping over ADO rows
- Dynamic connection strings

Using parameter placeholders

- Using the ? Symbol
- Mapping parameters

Merge joins

- How they work
- Comparing two data sets

Basic deployment

- Project-level deployment
- Creating a catalog
- Deploying and viewing in SSMS

Using parameters (*)

- Package and project parameters
- Using parameters in expressions
- Deploying parameters
- Why to avoid environments

From our Advanced SSIS course

A quick C# primer

- Writing methods
- Using variables
- Using namespaces

Script tasks

- Message boxes
- Setting return status

Variables in script

- Passing variables in/out
- Referencing in code

Script components

- Input and output flows
- Manipulating values in script

Sending mail (*)

- Limitations of the Send Mail task
- The System.Mail namespace
- Sending emails in code

Accessing file attributes (*)

- FileInfo and DirectoryInfo
- Accessing file properties
- Filtering by file date/time

Logging and auditing (*)

- Logging to text files
- Logging to SQL Server
- Audit transforms

Events

- Creating an event
- Pre- and post-execute events
- Error-handling using events

Pre-requisites for Fast track SSIS course

Although you don't need any knowledge of SQL Server to attend this course, you will find life easier if you know how to write a basic SQL statement. What you must have, however, is a very good aptitude for computing (the course's three days will pass very slowly if you don't!).

Prices

Venue	Address	Price per place
London	Landmark, 99 Bishopsgate, London EC2M 3XD	£1,995 per person + VAT
Manchester	Holiday Inn, 25 Aytoun Street, Manchester M1 3AE	£1,695 per person + VAT
Online	Your home or office!	£1,350 per person + VAT

Scheduled Dates

Dates	Venue	Times	Price per place	Booking
Mon/Wed 30th Mar/1st April 2026	Online	09:30-16:30	£1,350 + VAT	Book this
Tue/Thu 28-30 April 2026	Online	09:30-16:30	£1,350 + VAT	Book this
Wed/Fri 27-29 May 2026	Online	09:30-16:30	£1,350 + VAT	Book this
Wed/Fri 01-03 July 2026	Online	09:30-16:30	£1,350 + VAT	Book this
Wed/Fri 29-31 July 2026	Online	09:30-16:30	£1,350 + VAT	Book this

If you can't see the dates that you want, ask us about organizing a customized course at your office (we'll provide and set up the computers), or else an online course tailored to your needs.
