- Picking out error messages

Forms

- Creating MS Forms surveys
- Reacting to form completion

Approvals

- Creating an approval process
- Processing approvals / rejections
- Custom responses

Power BI integration

- Creating a button
- Assigning fields
- Using data in your flow

Pre-requisites for Introduction to Power Automate course

Because for both online and classroom courses you'll be using our computers, you won't need to install any software to attend this course, but you will get more out of the two days if you have some familiarity with Teams, Power BI and/or SharePoint.

Prices

| Venue | Address | Price per place |
